1200 Sixth Avenue  
Seattle, Washington 98101

RECEIVED  
MAR 16 1988

OFFICE OF REGIONAL COUNSEL  
EPA - REGION X

Re: Marine Power & Equipment

Gentlepersons:

This is regarding Ruth Nelson's letter of February 26, 1988 to Richard Koch, Department of Ecology. I attach a copy for your information.

Do either of you have any objection of Richard Koch being the designated contact for Marine Power & Equipment for purposes of carrying out the terms of the consent decree?

Ecology has no objection to extending the deadline for reporting the extent of debris deposited at the Lake Union site from March 1, 1988 to April 1, 1988.

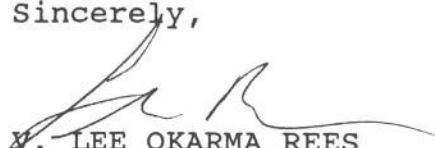

It appears to Ecology that Marine Power & Equipment will meet the consent decree's second deadline, as they are simultaneously analyzing the samples for content. Thus, it looks like this is a one-time extension. Please let me know EPA's position on this extension.

OFFICE OF THE ATTORNEY GENERAL

Jack Fox  
Monica Kirk
